**ABBREVIATION REFERENCE:** AIR – American Indian Reservation; Trust Land – Off-Reservation Trust Land; TJSA – Tribal Jurisdiction Statistical Area; TDSA – Tribal Designated Statistical Area; ANVSA – Alaska Native Village Statistical Area; ANRC – Alaska Native Regional Corporation; CCD – Census Civil Division; CDP – Census Designated Place; BNA – Block Numbering Area

**FEATURES**

|                            |                        |                     |
|----------------------------|------------------------|---------------------|
| Highway                    | Pipe/Power Line        | Stream/Shareline    |
| Secondary Road             | Ridge/Physical Feature | Intermittent Stream |
| Lease Trail/Waterway/Canal | Property/Fence Line    | River               |
| Railroad                   | Navigable Boundary     | Lake                |
|                            |                        | Glacier             |
|                            | Inset                  | Out Area            |

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol only for the highest boundary of these boundaries.

1 A "–" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

2 In 1990, a census of vessels population of ships at sea was allocated to census tracts with a "99" prefix. An anchor symbol associated on the 1990 map indicates the census of vessels tract. These maps show a very small MCD associated as a census tract with the census tract number shown near the area.

3 A "–" following a block number indicates that the block number is repeated elsewhere in the map.

The diagram illustrates various types of boundaries and features in a landscape, categorized into three main types: Highway, Secondary Road, and Jeo Tra/Workway/Ferry.

- Highway:** Represented by a solid line with a dashed line in the center. The label "Highway" is written above the line.
- Secondary Road:** Represented by a solid line with a dashed line in the center. The label "Secondary Road" is written above the line.
- Jeo Tra/Workway/Ferry:** Represented by a solid line with a dashed line in the center. The label "Jeo Tra/Workway/Ferry" is written above the line.
- Ridge/Physical Feature:** Represented by a solid line with a dashed line in the center. The label "Ridge/Physical Feature" is written above the line.
- Property/Tenure Line:** Represented by a solid line with a dashed line in the center. The label "Property/Tenure Line" is written above the line.
- Railroad:** Represented by a solid line with a dashed line in the center. The label "Railroad" is written above the line.
- Stream/Shoreline:** Represented by a solid line with a dashed line in the center. The label "Stream/Shoreline" is written above the line.
- Intermittent Stream:** Represented by a solid line with a dashed line in the center. The label "Intermittent Stream" is written above the line.
- River:** Represented by a solid line with a dashed line in the center. The label "River" is written above the line.
- Glacier:** Represented by a solid line with a dashed line in the center. The label "Glacier" is written above the line.
- Mudflat:** Represented by a solid line with a dashed line in the center. The label "Mudflat" is written above the line.
- Inset:** Represented by a solid line with a dashed line in the center. The label "Inset" is written above the line.
- Out Area:** Represented by a solid line with a dashed line in the center. The label "Out Area" is written above the line.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- <sup>1</sup> A "\*" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- <sup>2</sup> In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- <sup>3</sup> A "\*" following a block number indicates that the block number is repeated elsewhere in the block.

Sheet Location within Entity

The diagram illustrates the location of sheet 11 within a larger land entity. On the left, a grid shows sheets 11, 12, 16, 17, 18, 26, 27, and 28. On the right, a map of the land entity is shown with a small square indicating the location of sheet 11.
